Dan Landau, MD, PhD is a Professor of Medicine at Weill Cornell Medicine and a Core Member of the New York Genome Center. He is an hemato-oncologist whose long-term goal is to develop novel approaches to address cancer evolution as a central obstacle to cure. His research group is funded by the NCI, NHLBI and NHGRI, and his work has led to recognition and awards including Stand Up to Cancer, Burroughs Wellcome Fund, Vallee Scholar, and the NIH Director's New Innovator Award.
